

EQUINE CLINICS II

Study programme: MIMV Curricular Year: 5st Semester: 10st **Compulsory** **Credits:** 2.0 ECTS

Lecturer(s): José Paulo Sales Luis (CCP), Paula Tilley (R), Rita Fonseca

1. Contact hours: Lectures: 13h; Praticals: 13h

2. Objectives:

Students must get skills in equine clinics in a systematic way through anamnesis, patient history, symptomatology and information registration. Selecting complementary information and exams to perform definitive diagnoses is the aim. Communication skills with clients and medical staff is also requested.

3. Programme:

The program includes subjects like wound treatment, metabolic diseases of the athletic horse, rabdomyolysis, horse lameness, buying clinical examination, and donkey pathology.

Equine clinical cases of the veterinary teaching hospital are included in the practical activity of the student.
