

## COMPLEMENTARY ACTIVITIES IV

**Code:** Curricular Year: 1<sup>st</sup> Semester: 2<sup>nd</sup> Compulsory Credits: 1 ECTS

**Lecturer(s):** Graça Alexandre-Pires, Prof, Graça Alexandre-Pires, Luís Tavares, Manuela Oliveira, Ricardo Bexiga, Eva Cunha

### 1. Contact hours:

**Lectures - 2 ; Practicals and Seminars - 28**

**2. Objectives:** Provides opportunity to the student to contact with laboratorial activities and research taking place in the Faculty so that it is acquired a perspective of the different fields of the veterinary career.

### 3. Programme:

The organization of Complementary Activities IV obeys the following objectives: To familiarize the student with the laboratory activities of research and provision of services developed at FMV, in a perspective of raising awareness of the different aspects of professional activity of the Veterinarian. Ensure that the student understands the specifics of laboratory activities and recognizes the laboratory as a workplace where safety is paramount in the handling of material, reagents, and equipment. To promote in the student attitudes and safety behaviors appropriate to each practical-laboratory activity. To promote knowledge among the student about the different professional possibilities.

### 4. Bibliography:

Given by the invited Professors/professionals responsible for the seminars.

Nunes, F. (2009). *Prevenção dos Riscos Biológicos - Normas de Segurança e boas Práticas Laboratoriais*. FMV.
