

Isabel Pereira da Fonseca,
PhD
Prof. in Parasitology
(lfonseca@fmv.ulisboa.pt)

Parasitology and Parasitic Diseases Lab

Animal Health - One Health Research Group

RESEARCH TOPICS

Exosomes Modulating
Trypanosomatids' Host
Immune Response

Canine Dendritic
Cell Activity in
Leishmaniosis
Prophylaxis

Gastrointestinal
Parasites in Free-
ranging Wild Carnivores

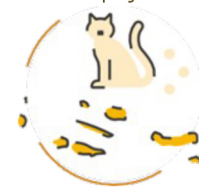

Integrated Control
of Avian
Gastrointestinal
Parasites

Diagnostics &
Genomics of
Intestinal Protozoa

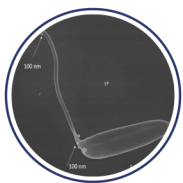

Gastrointestinal
Parasites in Horses:
Relationships &
Interactions

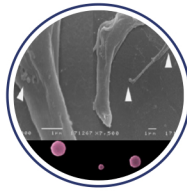

Gastrointestinal &
Cardiopulmonary
Parasites in Azores
Domestic Carnivores

Arthropod-borne
Diseases of
Domestic Animals
& Wildlife

Achieving New Frontiers
through Trypanosomatid
Exosomes modulating
Host Immune Response

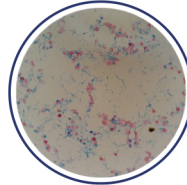

Immune Precision Medicine as
a new Opportunity to control
Canine Trypanosomatid
Diseases

Gastrointestinal
Parasites in Free-ranging
Wild Carnivores

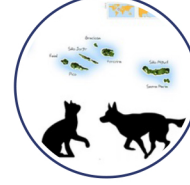

Integrated Control of
Avian Gastrointestinal
Parasites

Diagnostics and Genomics
of Intestinal Protozoa

Gastrointestinal Parasites
in Horses: Relationships
and Interactions

Gastrointestinal and
Cardiopulmonary
Parasites in Azores
Domestic Carnivores

Arthropod-borne Diseases
of Domestic Animals and
Wildlife
