

Victor Alves, PhD
Prof. in Genetics
(vdalves@fmv.ulisboa.pt)

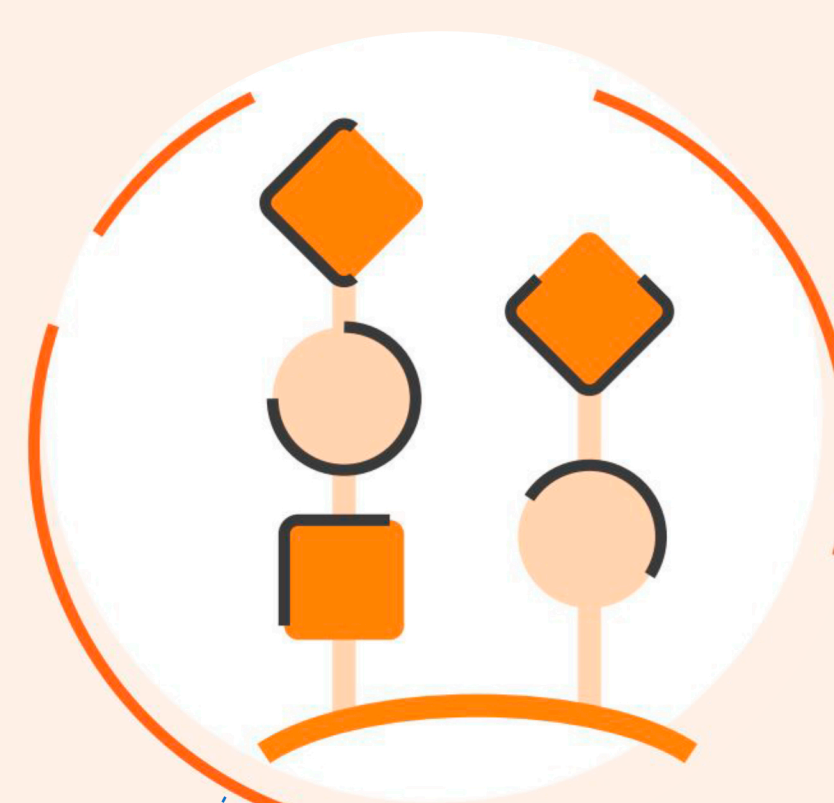

GLYCOBIOLOGY & STRUCTURAL ENZYMOLOGY RESEARCH LAB

ANIMAL SCIENCE & FOOD SAFETY RESEARCH GROUP

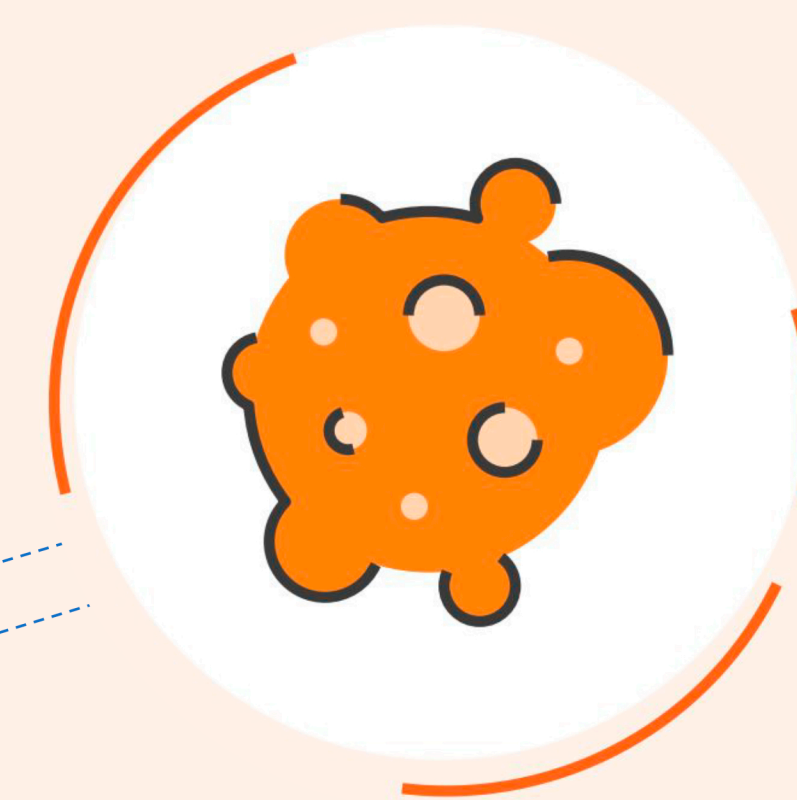

Protein-Protein Interactions
in the Assembly of
Multi-Enzyme Complexes

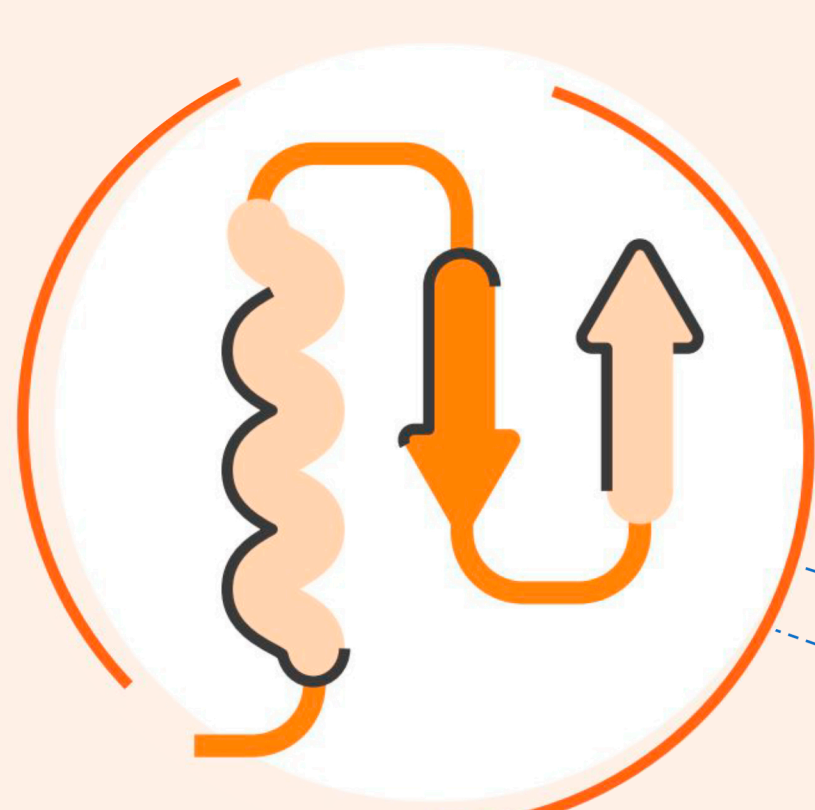

Altered
Glycosylation
in Cancer

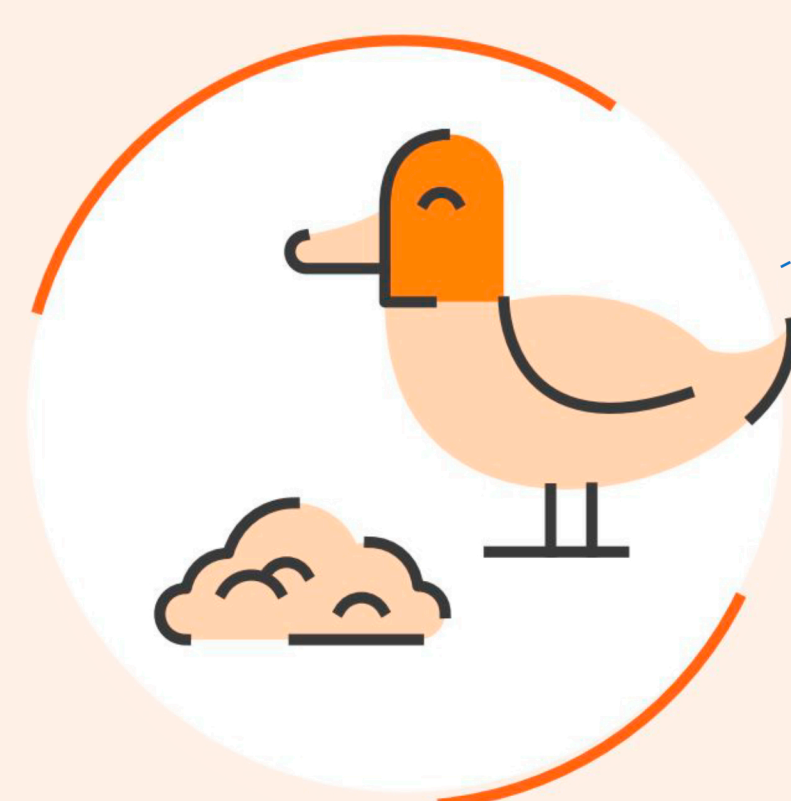

Development of
CAZyme-Based Anti-Cancer
Therapies

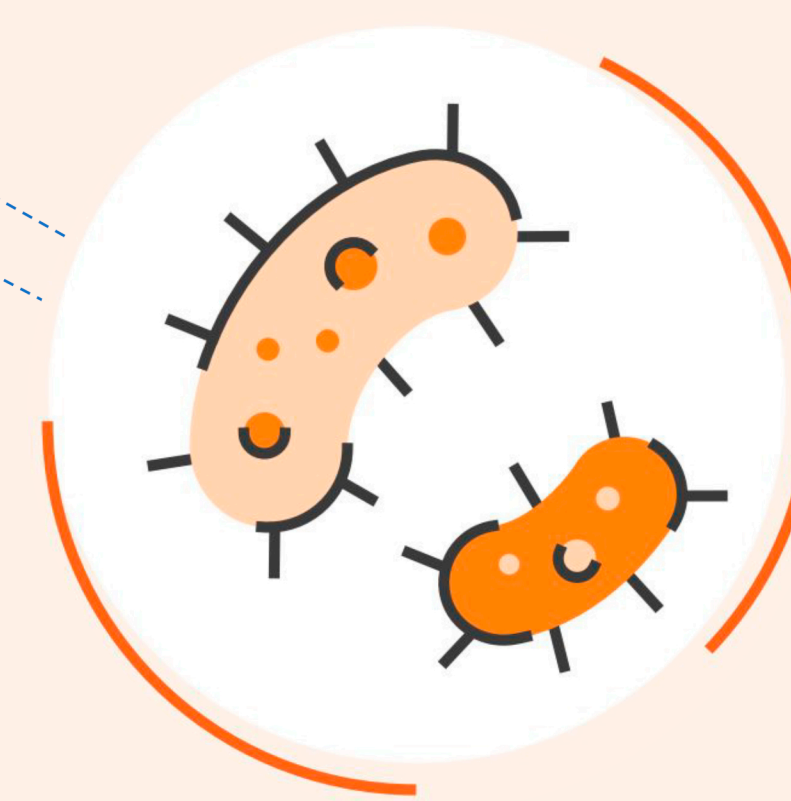

Structural & Biochemical
Characterization of
CAZymes

CAZymes
for Feed
Supplementation

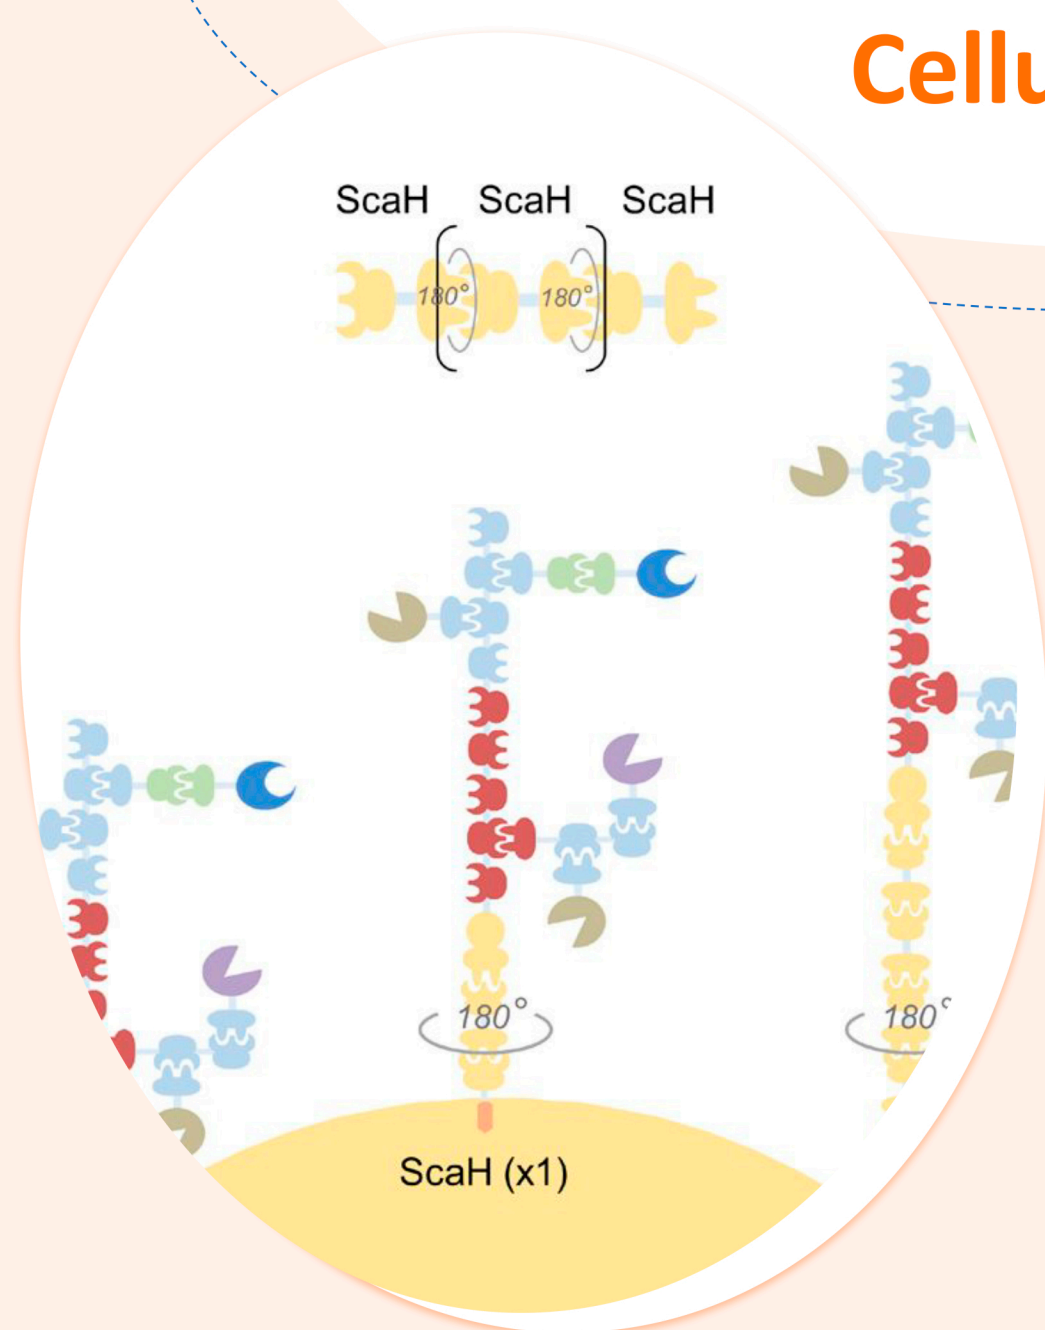

Polyssacharides
in Microbial
Biofilms

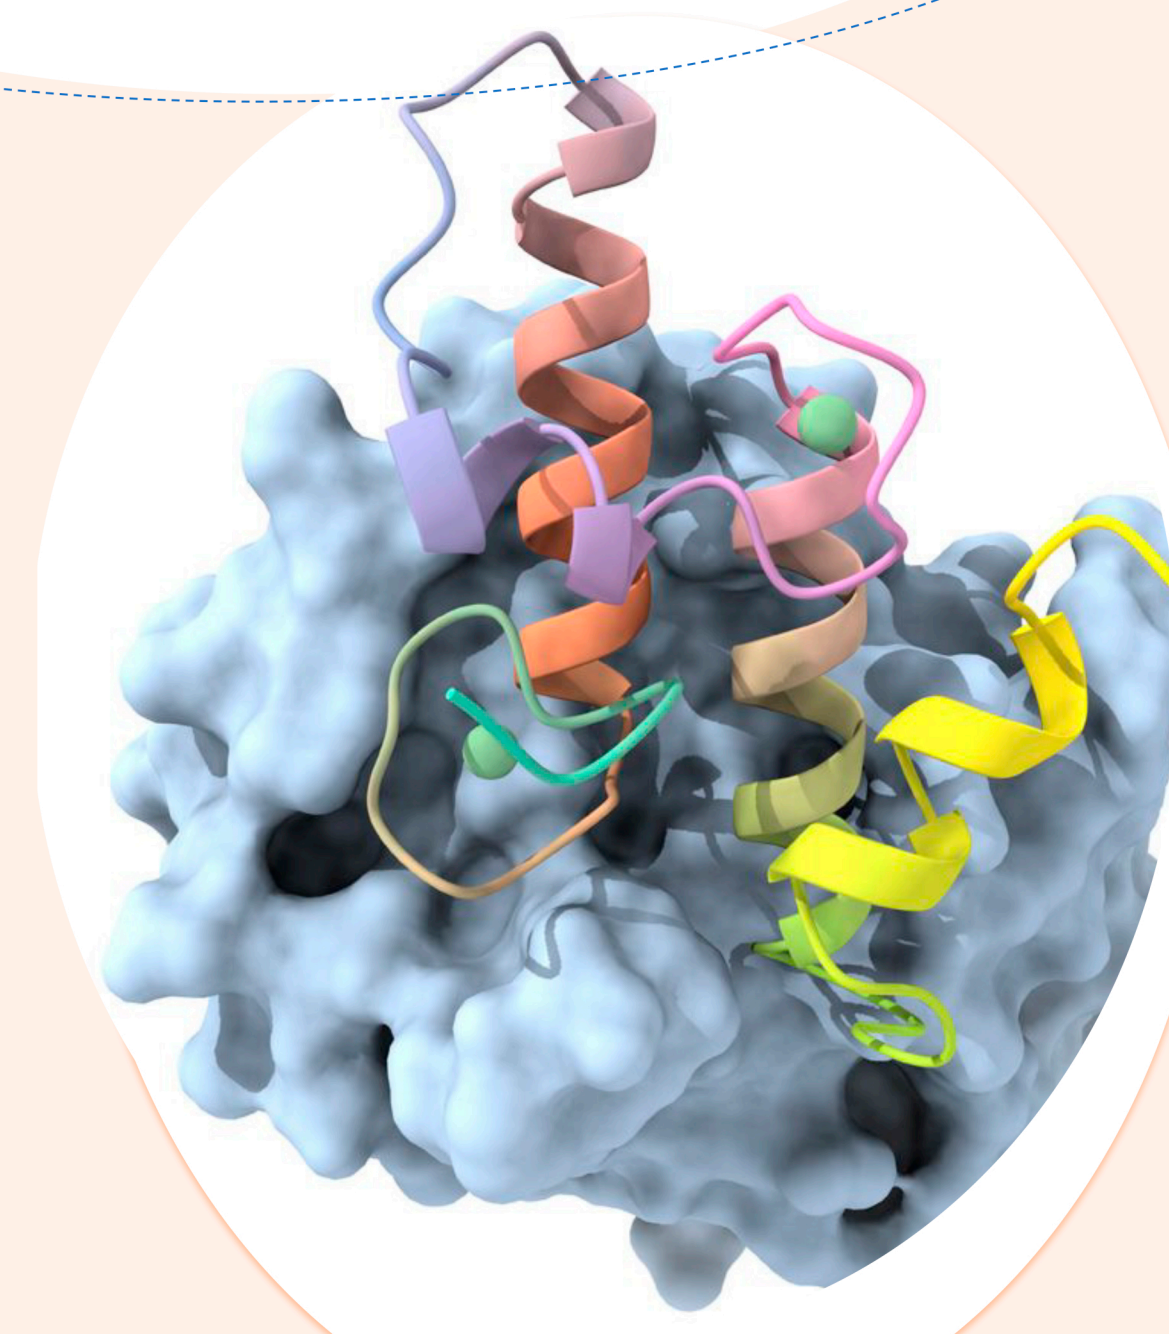

RESEARCH TOPICS

HIGHLIGHTS

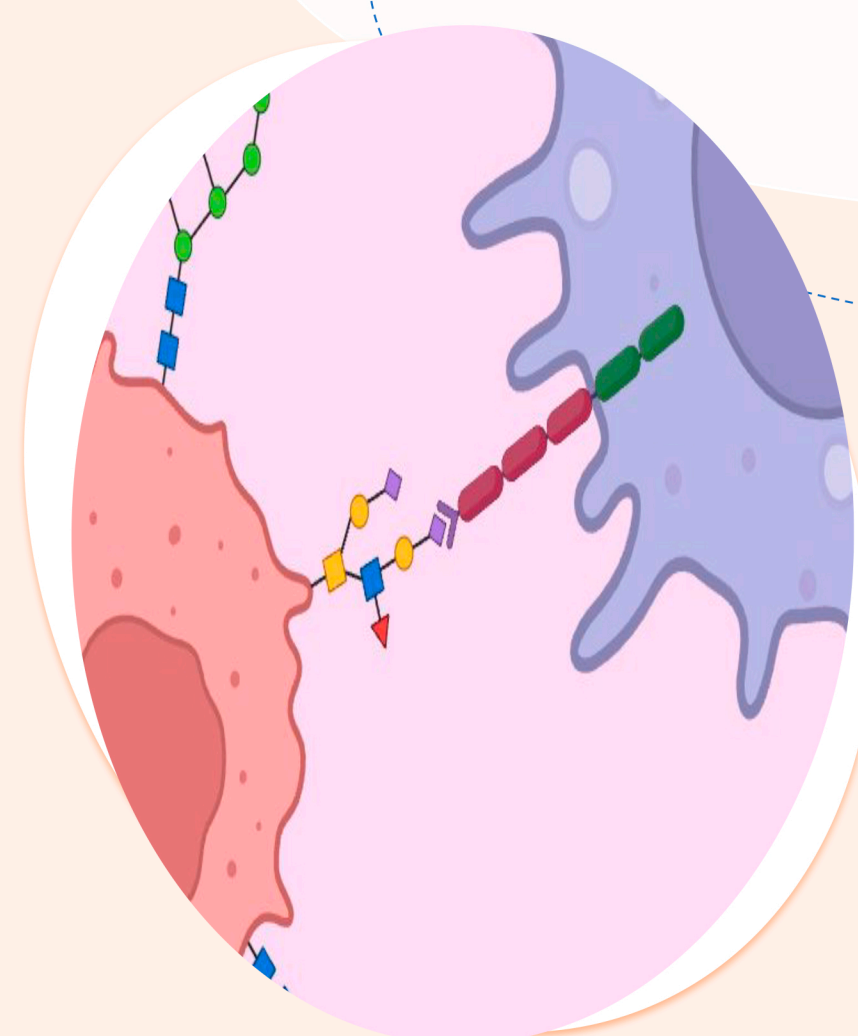

First Described Mechanism
for Selective introduction of
Dual-Binding Mode Into a
Cellulosome

Protein Engineering Strategies
to Manipulate Affinity and
Specificity of Protein-Protein
Interactions

"la Caixa" Junior Leader
Fellowship Awarded to
GSE Researcher

COLLABORATIONS
